

The Eye of Isis is here

In my e-book “The Coming Golden Age and How to Prepare for it” (available from www.thecominggoldenage.com) I discuss a number of cycles which are completing at this time. Some of the major ones are:

1. The long timeframe Mayan Calendar, which ends in 2012.
2. The experiment in emotion undertaken by humanity, a 200,000 (approx.) year cycle which is being brought to a close by the energies from Supernova 1987A, which exploded 200,000 years ago, that is at the beginning of the experiment. The completion of this cycle was planned at its beginning.
3. The Eye of Isis

It is the last of these that I want to focus on here.

The Eye of Isis is like an energetic searchlight that travels around the cosmos. When the Eye of Isis is present in a particular area of the cosmos, this area experiences a direct energetic connection to Source, the Ultimate Creator, or whatever term you choose to use to describe the Origin of All. At other times communication between entities in the cosmos and Source is via indirect routes, notably via specific stars and in our case the last step of which is our Sun. This indirect route is slower, less efficient and subject to interference. It also does not have the same energetic content as the Eye of Isis.

The Eye of Isis travels around the cosmos approximately once every million years and has just begun to arrive on Earth. It is these energies that are the key to the Ascension process which is underway here.

The Ascension process has two key purposes.

1. It brings to an end the experiment in emotion I mentioned earlier. Most beings in the cosmos have a direct connection to Source and continuously experience the joy, love and bliss that this connection imbues. In such a circumstance, beings will not experience the gamut of emotions – pain, fear, anger, anguish, doubt, uncertainty, etc. – that we experience on Earth. We have undertaken this experiment in separation by choice, to enable Source to experience these emotions, on behalf of Source and hence on behalf of all other beings in the cosmos.

We chose to have “veils” placed over our memories of who we are - magnificent beings of the Universe and great Masters of energy - in order to play in this drama. Now the drama is over and it's time to move on. The knowledge has been gathered about emotion and sent back to Source.

2. To separate those beings who wish to acknowledge their connection to Source and reclaim their Mastery from those who represent the fallen Angels. The fallen Angels are those who separated themselves from Source (in truth this cannot completely happen) and believed they could create on their own. The essence of all creation from Source is Love and the fallen Angels have eliminated this from their makeup and their “creations”, which leads to them needing to feed off the energy or light of others. Their representatives have dominated and controlled the rest of mankind since their arrival when the consciousness of humanity fell at the time of the fall of Atlantis. As the vibratory rate increases for those choosing to move on, these beings will be left behind.

The energies of the Eye of Isis are cleansing and repairing our physical bodies initially and over time will bring the exposure of all secrets, both of the light and the dark. The yoke of oppression will soon fall from the neck of mankind and those who practise manipulation and deceit on all levels for their own benefit will be exposed and their power removed. The degree of this on planet Earth is way beyond the imagination of almost any of those not party to its totality.

As we enter 2008, these energies are increasing rapidly. Expect much disruption of the status quo in 2008, however remember this is a personal journey and by setting a clear Intention for your own life, you can and will be protected and move forward towards Ascension. All you need to progress on this wonderful journey will be given to you. This does not mean you will not have work to do. You will. However you will be given the knowledge, guidance and tools to do the work that is yours to do.

It is a wondrous time in the history of mankind. It is important to recognize that, although you may not be aware of it at this time, you made a conscious choice to be here at this time and to participate.
